

GIS INSPIRING WHAT'S NEXT

Esri Resources

August 2018

ArcGIS platform overview: <http://esriurl.com/ArcGISplatform>

This story map provides an excellent tour through the ArcGIS platform. Maps presented are live. Please explore.

Autodesk & Esri alliance: <http://www.esri.com/Autodesk>

In November 2017, Esri and Autodesk announced an alliance to create BIM and GIS integration and interoperation. Both companies are making great strides to this end.

ArcGIS and Revit integration: <http://esriurl.com/CADBIMupdate>

The release of ArcGIS Pro 2.2 introduces two new capabilities for CAD and BIM—direct reading of Revit (RVT) files as attributed 3D GIS Objects and georeferencing in 3D Scenes for BIM and CAD data.

ArcGIS Indoors: <http://esriurl.com/ArcGISIndoorspage>

A new solution product focused on bringing GIS inside buildings. Forthcoming late 2018-early 2019. It will not be included in the educational institution license. Fee TBD.

ArcGIS Solutions: <http://solutions.arcgis.com>

Free industry-specific application configurations for ArcGIS. Check out local government, emergency management, utilities and parks and gardens.

Campus Mapping Initiative:

This initiative invites institutions to submit campus layers to become part of the Esri hosted Living Atlas of the World, <http://livingatlas.arcgis.com>. Learn more:

- Community Maps Blog Post <http://esriurl.com/Campusbasemaps>
- Community Maps Story Map <http://esriurl.com/Campusstorymap>
- Contact Shane Matthews SMatthews@esri.com

Esri Institutional License overview: <http://esriurl.com/EdInstLicenseOverview>

The license permits administrative uses of ArcGIS software. Contact your University's Esri site license coordinator for access to the Esri ArcGIS licenses you need. To learn more about specific applications, explore www.esri.com/products.

Esri Training: www.esri.com/training, includes course catalog, learning plans, etc.

Professional development is an essential aspect of success with GIS—staying current and learning new skills. Web courses are available at no charge as a license benefit. Educational staff are eligible for a 40% discount on Esri Instructor-Led Training classes. Additional guided lessons are available at <http://learn.arcgis.com>.

Esri Professional Services:

www.esri.com/services

Besides training, Esri offers consulting services for implementing Esri technology as well as solution design and implementation.

Your Esri contacts for success:
