

Learning is a lifelong journey.

Change is constant. Keep your skills up to date.

## **AEC Community Webinar – Training Resources for AEC – Additional Information**

Thank you for attending the AEC Community webinar! All resources shown on the presentation, as well as some general training materials, can be found online using the links below. If you have general questions, please contact our Training team at [GIStraining@esri.com](mailto:GIStraining@esri.com) or Tina Brewington (Esri Training Consultant for AEC sector) at [tbrewington@esri.com](mailto:tbrewington@esri.com).

### **General Info:**

[Training for Individuals](#)

[Training for Organizations](#)

[Training Help Page](#)

### **Training Resources:**

[Esri Academy – Esri Online Classroom](#)

- [Course Catalog](#)
- [Learning Plans](#)
- [Esri LMS Integration](#) - Integrate Esri's e-learning content on your current Learning Management System for seamless content management and accessibility for your entire organization.
- [Esri Technical Certification](#)

### **Instructor-Led Training:**

- [Putting ArcGIS to Use Across Your Organization](#) – New ArcGIS users will discover how the ArcGIS platform helps organizations address common business challenges and apply location-based insights to streamline operations and improve decision making.
- [Migrating from ArcMap to ArcGIS Pro](#) – Experienced ArcMap users will learn how to be productive in ArcGIS Pro right away.
- [ArcGIS Online: Essential Workflows](#) – New ArcGIS Online users will learn how to access, use, create, and share content using ArcGIS Online or ArcGIS Enterprise portals.
- [Field Data Collection and Management Using ArcGIS](#) – Non-GIS users will learn best practices to configure and deploy ArcGIS field-productivity apps to meet an AEC firm's data-collection needs. Course covers ArcGIS Collector, Dashboards, ArcGIS Survey123, ArcGIS Workforce, and ArcGIS QuickCapture.
