The first selection is as it should be, Elementary Schools in Search Layer, and in list.

Search			💳 🦪 😭 💳 🛛				
2	Search Layer:		Elementary Schools				
Select school from list. (Hint:Type first letter of school nam to navigate list, or use scroll bar):							
	~1	ALLAN		•			
		ALLAN		0			
- A.		ALLISON					
-	ath	ANDREWS					
		BALDWIN					
q_{\pm}		BARANOFF		0			

I don't select any Elementary (or if I only selected the first item), and then I select Search Layer for Middle Schools, click the dropdown, and the values for Elementary still appear

Sea	arch				
3	Search Layer:	Middle Schools			
7~	Select school from list:				
	ANN RICHARDS	•			
	ALLAN	¢	5		
1.	ALLISON				
ें ज	ANDREWS				
-	BALDWIN				
	BARANOFF	c	<u> </u>		

If I click on one of those (false) values, the actual Middle School that should be in that position is selected, and the list refreshes

Sea	rch					
2	Search Layer:	Middle Schools	•			
	Select school from list:					
	BAILEY		•			
	ANN RICHARDS	arch Clear	0			
	BAILEY					
1 ali	BEDICHEK					
-	BURNET					
	COVINGTON		•			

By selecting a value other than the first value in the list, the next list selected in the Search Layer will appear as expected.
