|  | Census Tract Boundary                                 |
|  | Census Block Group Boundary                           |

## ABOUT THE DATA:

**Low income** population numbers were derived from Table B19001 "Household Income in the Past 12 Months (in 2012 inflation-adjusted dollars)" from the 2008-2012 American Community Survey. The percentage listed is the number of households in each income range (up to and including the range that contains the current poverty level amount) divided by the total number of households.

**Minority** population numbers were derived from Table B03002 "Hispanic or Latino Origin By Race" from the 2008-2012 American Community Survey. The choice "White Alone" was subtracted from the Total Population to calculate the minority population & percentage.

**Limited English Proficiency (LEP)** population numbers were derived from Table B16004 "Age by Language Spoken at Home by Ability to Speak English for the Population 5 Years and Over" from the 2008-2012 American Community Survey. The choices "Speak English Not Well" & "Speak English Not At All" were subtracted from the Total Population to calculate the LEP population & percentage.

**Additional Languages Spoken** percentages were derived from Table B16001 "Language Spoken At Home By Ability To Speak English For The Population 5 Years And Older" from the 2008-2012 American Community Survey. The percentage listed are based on the the entire census tract's population and illustrate the various languages spoken at home by individuals who identified themselves as having limited english proficiency.
