Next Steps

- **Catalog migration**
 - Geodata.gov – hosting through July 2011
- **Integration with Data Mgmt. System (DMS)**
- **Supporting Geoserach and search widget**
- **Visualization and GeoPlatform discussions**

Challenges for a national catalog

- **Geo + Other Data**
- **Better search/results experience**
- **Base Maps, Services, Data, Collections**
- **Finding ‘High Value’ national sets in the granules of data**
- **Tools that facilitate download vs file by file**
