Change http to https

Update Items Content URL

Server Url:

How much of the server URL?
Here, I used just the “root” server URL.

Update Items Content URL

You are about to modify the URL of these items to the URL below.

Legislative Districts 2014 - 114th

AFTER

The GeoJobe tool modified the whole URL, not just the “root” portion. This implies that each service would need to be changed individually, not en masse.
