

Export Layout Accessibility PDF Metadata Information Not Retained for APRX

9/12/2025

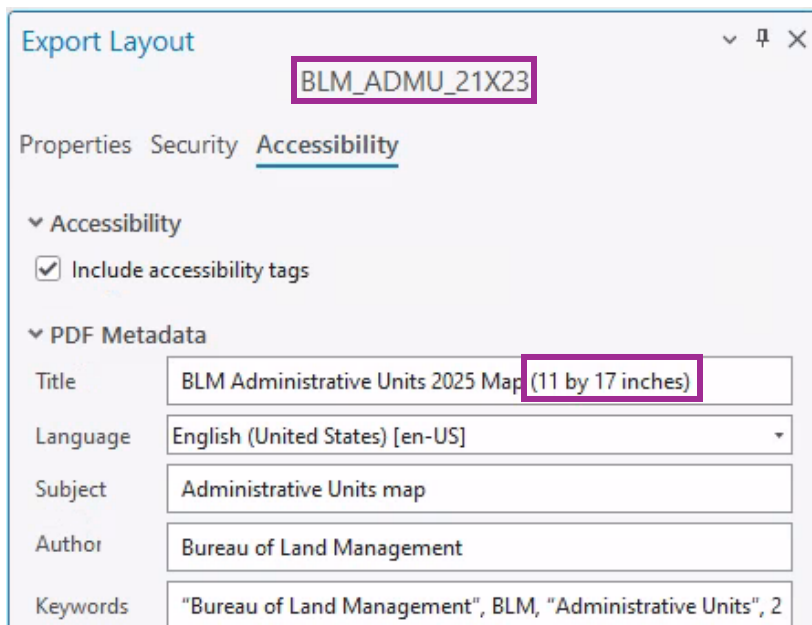

I open an APRX and the Export Layout tool. I populate the Accessibility PDF Metadata information. If the Save button is active I click Save. I Export the layout to PDF. The Save button is not active after I export so I cannot save again.

The screenshot shows the 'Export Layout' dialog box with the 'Accessibility' tab selected. The title field is 'BLM Administrative Units 2025 Map (11 by 17 inches)'. The language is 'English (United States) [en-US]', the subject is 'Administrative Units map', the author is 'Bureau of Land Management', and the keywords are 'of Land Management', 'BLM', 'Administrative Units', '2025, Map'.
