## How can you reach your target customers?

You should now have a clear definition of who your target customers are and what their lifestyle characteristics are like. Now you're ready to develop a marketing and media strategy designed to reach your target customers and more like them.

This section provides an overview of the media vehicles that your target customers read, listen to, and watch.
It is important to remember that the information in this section, like in the section above, comes from a syndicated customer survey conducted by Mediamark Research Inc. As such, the information included is not actual rating data. Your advertising agency can provide information about television viewing and radio listening habits. Information about the magazine and newspaper reading habits reflect data about people who read these publications regularly. They may not be subscribers to the publication. Likewise, the television viewing information is based on customers' responses as to whether they watch a program.

Based on the data in the tables below you can see how to reach your target segment groups based on the different type of media options.
