ANNUAL SUMMARY

Summary of certain questions from the **rptFeature** nested repeat	
Acres of habitat created?	
Cubic yards of dam removed?	9
Number of dams removed?	2

Project Ratings	
Want to tally total ratings for each SurveyType. If survey type does not exist then hide the fields. The ...... syntax in yellow table results in the rows being repeated for each "CB" record.	

Yellow section is hidden because there is no CB survey type in the filtered records.

Project Ratings	
The syntax in the green table correctly tallies the total ratings for each survey type; however, if the survey type does not exist then empty rows remain on the report taking up space.	

Monitoring Visit # (*choose from dropdown to match from above*)

Survey Type	CB
# of Features Monitored	0
# Excellent	0
# Good	0
# Fair	0
# Poor	0
# Failed	0

There are no CB or CD survey types, but the fields remain in the report.

Project Ratings

Survey Type	CD
# of Features Monitored	0
# Excellent	0
# Good	0
# Fair	0
# Poor	0
# Failed	0

Project Ratings

Survey Type	FB
# of Features Monitored	1
# Excellent	0
# Good	0
# Fair	1
# Poor	0

There is an FB survey type and the total is returned for all the FB records.
