

<https://story.maps.arcgis.com/apps/Shortlist/index.html?appid=28b868e99464448f84c13b49e76a88ef>

The mobile view list should be ordered differently. "All" should be the first tab, not the second one.

The map opens without symbols.

The category Group Study Rooms lists features that should be in the "All" category.

If I click on a feature in the list nothing happens.

Unable to reproduce with Esri sample:
