

The Web Map

The image shows a web browser window displaying a map of Lagos, Nigeria, with a Firebug developer tool open. The browser window has several tabs open, including 'Yahoo!', 'Babysitter sees...', 'Man indicted i...', 'Test Map', 'Test Map', '_ags_233b5ad1bc1...', 'JSON: What It...', 'JavaScript - Wi...', and 'Reply to 'Re P...'. The address bar shows the URL 'lamata-gisvr.lamata-ng.com/arcgis/apps/Viewer/index.html?appid=69d4fd17c3441cca6d6c5e1aa3935f'. The map displays various districts of Lagos, including Ojo, Ibeju-Lekki, Shomolu, Mushin, Ikeja, Kosofe, Surulere, Eti-Osa, Badagry, Lagos Island, Lagos Mainland, and Alimosho. A 'Basemap gallery' is visible on the right side of the map, showing options like Imagery, Imagery with Labels, Streets, Topographic, Terrain with Labels, and Light Gray Canvas. The Firebug developer tool is open at the bottom, showing the HTML structure of the page, including the head section with meta tags and style sheets.
