

Esri Federal GIS Conference

February 11-12, 2020 | Washington, D.C.

Special Message for University Student Program attendees...

We look forward to seeing you at the 2020 Federal GIS Conference. In order to help you gain the maximum benefit from this event, we have highlighted a few resources among the hundreds of activities, workshops and expo opportunities available on February 10-12.

The **University Student Program** is a new [pre-conference](#) program at FedGIS. Enjoy a specially designed program for you including a keynote, presentations, networking lunch, workshops and a career fair. As a student, you will learn about the national government field, build a network of peers and industry professionals, and learn spatial skills at workshops.

The **GeoConnect Career Fair** will conclude the day. The purpose of the career fair is for students and young industry professionals to learn about potential careers in the National Government Industry, which leverage GIS skills. As a student, you will be able to network with potential employers from government, academia, and industry. You can receive advice and have your resume's reviewed to receive feedback on specific opportunities.

Our Support Team is Available for You...

- **Raquel Perez** - raquel_perez@esri.com
- **Ben Conklin** - bconklin@esri.com
- **Geri Miller** - geri_miller@esri.com
- **Angela Lee** - alee@esri.com
- **Julia Bell** - juliabell@esri.com
