

Esri Education Institution Agreement - Global

The Education Institution Agreement provides qualified institutions with an affordable way to acquire select Esri products for non-commercial teaching, research, and campus administration. Qualified institutions include accredited, degree-granting 2-year and 4-year colleges and universities worldwide, administrative offices of primary and secondary schools and school districts, and museums.

The Education Institution Agreement includes two sets of licenses for the Esri products listed below. One set is for academic use (teaching, research) and another is for administrative use.
