Product Team Update
(RHUG meeting 6/13/18)

Capabilities currently under development

- All development items for 10.6.1 completed

Support Incidents/Defects

- **BUG-000114418 – "Conflict prevention in Roads and Highways for Desktop" documentation incorrectly states that locks can be automatically released by deleting a version (functionality was added at 10.6)**

- **BUG-000114455 – Route length and calibration measure field derived from it differ from M value of last route vertex in the 7th decimal place (still investigating)**

Documentation Updates/Training Opportunities

Documentation

- **Next update to documentation will come with the 10.6.1 release in July**

Training

- **Roads and Highways sessions at User Conference next month**
