

State, Regional, and Local Government

The Esri User Conference has many presentations and events with hundreds of topics covered. To help you find your way to the State, Regional, and Local Government sessions and events, we have prepared a more focused agenda.

Government Showcase*

We invite you to stop by the Government Showcase to experience our new tools through live demos, meet with industry experts, and attend one of our informative demo theater sessions designed to help you innovate your organization. Our goal in this showcase is to help you find the tools you need to create healthier, safer, and more resilient communities; to build more sustainable infrastructure; and support open government initiatives.

Are you using any of our ArcGIS for State Government or Local Government applications to build a smarter community? If so, we want to hear about it. Stop by the Government Showcase to let us know what apps you are using. If you are using three or more apps, we want to give you our limited edition "I am building a **smart community**" T-shirt.

Government Showcase Hours Tuesday, July 15, 9:00 AM–6:00 PM Wednesday, July 16, 9:00 AM–6:00 PM Thursday, July 17, 9:00 AM–1:30 PM San Diego Convention Center, Exhibit Hall C, Ground Level
