An aerial photograph of a city street. The street runs vertically through the center. On the left side of the street, there are several houses with green lawns. On the right side, there are commercial buildings and parking lots filled with cars. Overlaid on the street are four orange circles, each containing a glowing lightbulb icon, representing streetlights. The circles are positioned at the top, middle, and bottom of the street, with one at the very bottom. The background is a high-resolution aerial image showing buildings, trees, and roads.

An aerial satellite-style map of a city, likely Nashville, Tennessee, showing a dense street grid and various buildings. Numerous green circular markers with a white starburst in the center are overlaid on the map, indicating specific locations for mosquito control. The markers are scattered across the city, with a higher concentration in the central and northern areas. Two orange callout boxes are present: one in the lower-left foreground pointing right, and another in the middle-right foreground pointing left.
