

Esri User Conference

July 13-16, 2020 | Join us virtually

New to ArcGIS? A Wayfinding Guide to Conference Sessions

Developers

The [Esri User Conference](#) has many free, virtual sessions with hundreds of topics covered. To help you find your way to relevant sessions, we have prepared you a more focused agenda.

If you are new to ArcGIS and your organization's location strategy, we recommend a **progressive sampling** from the topics below based on your role. If already [registered](#) for the UC, simply follow the Agenda links below or just search for the session Titles inside the virtual user conference application.

Introductory Resources

- [What is GIS? \(1 min video\)](#)
- [What is Location Intelligence \(2 min video\) \(StoryMap\)](#)
- [What is Spatial Analysis? \(StoryMap\)](#)
- [Esri User Conference Question & Answers](#)
- [GIS Dictionary](#)

There are three distinct pages – [Live Sessions](#) and [On Demand Technical Workshops](#), and [On Demand Demo Sessions](#) - containing the lists of relevant sessions. Each have “Topic” filters that help you find the right tracks at the conference that interest you most. Topics typically focus on ArcGIS *capabilities* like Spatial Analysis or *products* like ArcGIS Online that have multiple associated sessions. There are a few more general purpose topics as well as described below:

- **Plenary Sessions:** Esri President Jack Dangermond explores how geographic information systems (GIS) facilitate interconnected intelligent systems across government, private businesses and society. Viewers will get an overview of GIS the ArcGIS Platform in **Part 1**, see demonstrations of new ArcGIS technologies in **Part 2**, and be inspired by global implementations in **Part 3**.
- **“Getting Started with...”** This series from Esri Product Managers provides introductory overviews of the ArcGIS platform and specific ArcGIS products and solutions.
- **“Implementing ArcGIS”** This series from Esri Professional Services provides best practices and lessons learned on the ground by services teams tasked with helping build your location strategy, build systems in the field.

All Access Registration is free to all members of an organization current on its maintenance plan or subscription, including furloughed employees or users with [ArcGIS for Personal Use](#) licenses.

New to ArcGIS? A Wayfinding Guide to Conference Sessions

Developers

UC 2020

Below is a sample of sessions in progressive order from introductory to more targeted deeper dives into product capabilities based on your role.

All sessions are **free** to any user with a maintenance subscription or member of an organization with or an Enterprise Agreement.

User Conference Plenary | GIS–Interconnecting Our World @ [Main Stage](#)

- **Part 1** – Monday, July 13, 10am-12pm PDT – an orientation to GIS and introduction to ArcGIS
- **Part 2** – Tuesday, July 14, 10-11am PDT – demos of latest in ArcGIS technology and applications

“Getting Started with...”

- [ArcGIS: Understanding the Platform](#) * - platform level introduction illustrating basic GIS feature
- [ArcGIS: An Open Platform](#) * - platform introduction from the view of interoperability patterns
- [Getting Started with Web Development and the ArcGIS API for JavaScript](#)
- [ArcGIS API for JavaScript: 2D Visualization](#)
- ArcGIS Pro SDK for .NET: An Introduction
- Geocoding: Creating New ArcGIS Locators
- [ArcGIS Enterprise: An Introduction](#) * - overview of basics of an organizational deployment
- [ArcGIS Online: An Introduction](#) * - overview of hosted SaaS offering

“ArcGIS for Developers”

- [Client-Side Analytics with the ArcGIS API for JavaScript](#) *
- [ArcGIS Runtime SDKs: What's New and Road Ahead](#) *
- [Python Across the ArcGIS Platform](#) *
- [ArcGIS Notebooks: An Introduction](#) *
- [ArcPy: An Introduction](#) *
- [ArcGIS API for Python: An Introduction to the Modules](#) *

UC 2020

Browse all [Live*](#) and [On Demand Technical Workshops](#), and [On Demand Demo Sessions](#).

Other On Demand [Technical Workshops](#) and [Demo Sessions](#)

- [Esri and Open Source](#)
- [ArcPy: Building Geoprocessing Tools](#)
- [Application Development with Serverless Architecture](#)
- Web AppBuilder for ArcGIS: A Deep Dive into Enterprise Deployment
- [ArcGIS Experience Builder: Customizing and Extending](#)
- [ArcGIS Survey123: Extending](#) * & [Automating with Webhooks](#)

2020 Esri Developer Summit – Free [Plenary](#) & [Tech Sessions](#)

The Developer Summit includes 200+ previously recorded sessions from the March virtual event, providing more detailed sessions for web and app developers.

- [Esri Location Services for Developers](#)
- [ArcGIS API for JS: A Look Under the Hood](#)
- [Building Apps with Esri Leaflet](#)
- [Using Koop to Connect to Any Data Source](#)
- [Extending ArcGIS Enterprise: Developer Technologies and Webhooks](#)

200+ Developer-Focused Videos Available Pre-UC on YouTube

* Live Session with Q&A. All other sessions are “On Demand” starting Monday, July 13 at 12:05pm PDT and can be found by searching the virtual UC Tech Sessions Page.
