

Defense & Intelligence Events and Activities

The Esri User Conference has many presentations and events with hundreds of topics covered. To help you find your way to the Defense and Intelligence sessions and events, we have prepared a more focused agenda.

Esri National Security and Public Safety Summit

July 9-10, 2017

Hilton San Diego Bayfront, Promenade Patio

One Platform, Many Missions

The Esri National Security and Public Safety Summit is the world's largest geographic information system (GIS) event dedicated to homeland/national security, public safety, and defense. It is attended each year by professionals from around the world, including executives, analysts, intelligence personnel, and frontline staff, to discover how Esri software, services, and partner agencies are improving mission workflows. The Esri National Security and Public Safety Summit will give you unique access to stakeholders like you, who are charged with ensuring a safe community. Experts from around the world will showcase the latest innovations and best practices. Whether you work in defense, national security, intelligence, law enforcement, emergency management, or public safety, you'll see how geospatial technology enables true situational awareness and comprehensive understanding in even the most dire circumstances. **This is a for fee event.**

National Security and Public Safety Social

Sunday, July 9, 5:00 PM–7:00 PM

Hilton San Diego Bayfront, Promenade Patio

Leading-edge GIS users in the public safety, defense, homeland/national security, intelligence, emergency management, health, and law enforcement communities will gather to network and socialize before the weeklong conference.

Esri's ArcGIS provides an open platform that leverages advanced analytic methodologies, enterprise tools, and integrated applications. Esri technology integrates multiple sensors, data, and activities to unlock the full potential of your data. Visit the Defense & Intelligence Area, where you can:

- Learn how Esri partners with customers to develop next generation Intelligence applications for real world missions
- See analytic tools and workflows that deliver deeper insights for timely decision making
- Explore the many open and configurable apps by Esri that enable collaboration and sharing of dynamic intelligence
- Discover modern defense mapping and solutions for your organization

USGIF GEOINteraction Tuesday

Tuesday, July 11

4:30 PM–6:30 PM

Hilton By the Bay, Elevation Room

The United States Geospatial Intelligence Foundation (USGIF), a non-profit focused on geospatial intelligence tradecraft, is offering a special event as part of the Esri International User Conference. Held the second Tuesday of every other month, GEOINteraction Tuesday is a casual networking event where you can develop new relationships, exchange ideas and discover business opportunities. Each event features a guest speaker from the Defense, Intelligence, or Homeland Security Community who shares their views on current issues and answers audience questions. **This is a for fee event and requires registration at <http://usgif.org/events/geointeraction>.**
