# ArcGIS Pro Intelligence
Webinar Series

Thank you for attending the Esri's ArcGIS Pro Intelligence Webinar Series. Our Team at Esri is committed to providing you with the most up-to-date resources. Here are a few simple ways you can stay connected, subscribe to the Esri's Quarterly Defense and Intel eBrief, connect with GIS professionals on the Esri Community, or follow us on Twitter.

ArcGIS Pro Intelligence is built for the intelligence analyst. Intelligence analysts working in the military, for civilian intelligence agencies, in law enforcement, and in the private sector are using the 2D and 3D maps, link analysis, timelines, imagery exploitation, and graphs to uncover patterns, trends, and relationships to inform decision-making. **ArcGIS Pro Intelligence scales to meet your mission w**hether you need to u**nderstand pattern of life, conduct movement analysis, or provide investigative support.** ArcGIS Pro Intelligence is an interoperable and extensible desktop application, supporting your data integration strategy across multiple domains, in connected, disconnected, and air-gapped networks.

Use Cases:
1. Analyze past incidents to determine patterns, trends, and statistical significance to assess potential threats.
2. Visualize complex relationships in your data to reveal previously unknown connections with link analysis.
3. Uncover patterns, trends, correlations, and relationships in your data to provide investigative support.
4. Process, evaluate, manipulate, and analyze imagery and full-motion video
5. to extract essential elements of information.
6. Conduct geospatial data analysis to visualize locations and activities of interest in both 2D and 3D. Track geolocated entities and analyze movement.

Additional Resources

Movement Analysis using ArcGIS Pro Intelligence in the ArcGIS Blog:
- Part 1: Spatiotemporal Methods with ArcGIS Pro Intelligence - Part 1: Time-enabling layers
- Part 2: Spatiotemporal Methods with ArcGIS Pro Intelligence - Part 2: Understanding Movement Data and Analysis

Training in the Esri Academy
- Get Started with ArcGIS Pro Intelligence (48 min seminar)
- ArcGIS Pro Intelligence: Getting Started (9 min video)
- ArcGIS Pro Intelligence: Importing Intelligence Information (7 min video)
- ArcGIS Pro Intelligence: Creating Alerts and Conditions (7 min video)
