Esri Modernization Program for Official Statistics

A program to provide the Esri Platform to countries in need

- **Who**

- Countries include Least Developed Countries (LDCs) and Small Island Developing States (SIDS) plus others as agreed by Esri and UNFPA

- **What**

- ArcGIS Enterprise including desktop, server and online as well as access to learn lessons

- **When**

- Now! 2020 round and extended to 2030 round per MOU with UNFPA

- **How**

- Application required
- MLA required
- Donation of perpetual license - FREE in support of PHC
- Small admin fee, paid up front for duration (\$10k per year e.g., 4 years =\$40k)

Countries include Least Developed Countries (LDCs) and Small Island Developing States (SIDS) plus others as agreed by Esri and UNFPA

Esri Modernization Program for Official Statistics

Pre-enumeration:

- Geodatabase
- Base map updates
- Map of enumeration areas
- Optimize, edit and validate enumeration Areas
- Optimize assignments
- Census data model and web apps
- Survey design and test

Enumeration:

- Workforce management
- Conduct survey
- Monitor collection
- Manage operations

Post-Enumeration:

- Data dissemination
- Thematic maps
- Online Atlas
- Story maps of survey results
- Map of response rates
- Other map information products
- SDG alignment and reporting

Esri Modernization Program for Statistics

Perpetual use licenses
yours to keep

+ Access to
ArcGIS online,
Geonet, maintenance,
and learn lessons
for the full duration

Program Bundle
up to 50 desktops
Up to 24 cores Enterprise GIS
Viewers = 50
Creators = 200

Desktop software include ArcMap or Pro

Software	License Quantities Permitted
ArcGIS Desktop Software (Single Use)	
Advanced or Pro (please indicate which)	50
ArcGIS Desktop Extensions (Single Use)	
ArcGIS 3D Analyst	50
ArcGIS Data Reviewer	50
ArcGIS Geostatistical Analyst	50
ArcGIS Network Analyst	50
ArcGIS Publisher	50
ArcGIS Schematics	50
ArcGIS Spatial Analyst	50
ArcGIS Tracking Analyst	50
ArcGIS Workflow Manager	50
Esri Production Mapping	50
ArcGIS Image Analyst for use with Pro	50

Server software includes 24 cores of ArcGIS Enterprise with Staging and extensions

ArcGIS Enterprise	
ArcGIS Enterprise Advanced – up to 4 cores	1
ArcGIS GIS Server	
ArcGIS GIS Server - additional cores	20
ArcGIS GIS Staging Server – up to 4 cores	1
ArcGIS GIS Staging Server – additional cores	20
ArcGIS GIS Server Extensions	
ArcGIS 3D Analyst	Included
ArcGIS Geostatistical Analyst	Included
ArcGIS Network Analyst	Included
ArcGIS Schematics	Included
ArcGIS Spatial Analyst	Included
ArcGIS GIS Staging Server Extensions	
ArcGIS 3D Analyst	Included
ArcGIS Geostatistical Analyst	Included
ArcGIS Network Analyst	Included
ArcGIS Schematics	Included
ArcGIS Spatial Analyst	Included

Also includes some optional servers

6 cores each of Image Server and GeoEvent + Staging licenses

ArcGIS Optional Servers	
ArcGIS Image Server – up to 4 cores	1
ArcGIS Image Server – additional cores	2
ArcGIS Image Staging Server – up to 4 cores	1
ArcGIS Image Staging Server – additional cores	2
ArcGIS GeoEvent Server – up to 4 cores	1
ArcGIS GeoEvent Server – additional cores	2
ArcGIS GeoEvent Staging Server – up to 4 cores	1
ArcGIS GeoEvent Staging Server – additional cores	2

Additional licenses included:

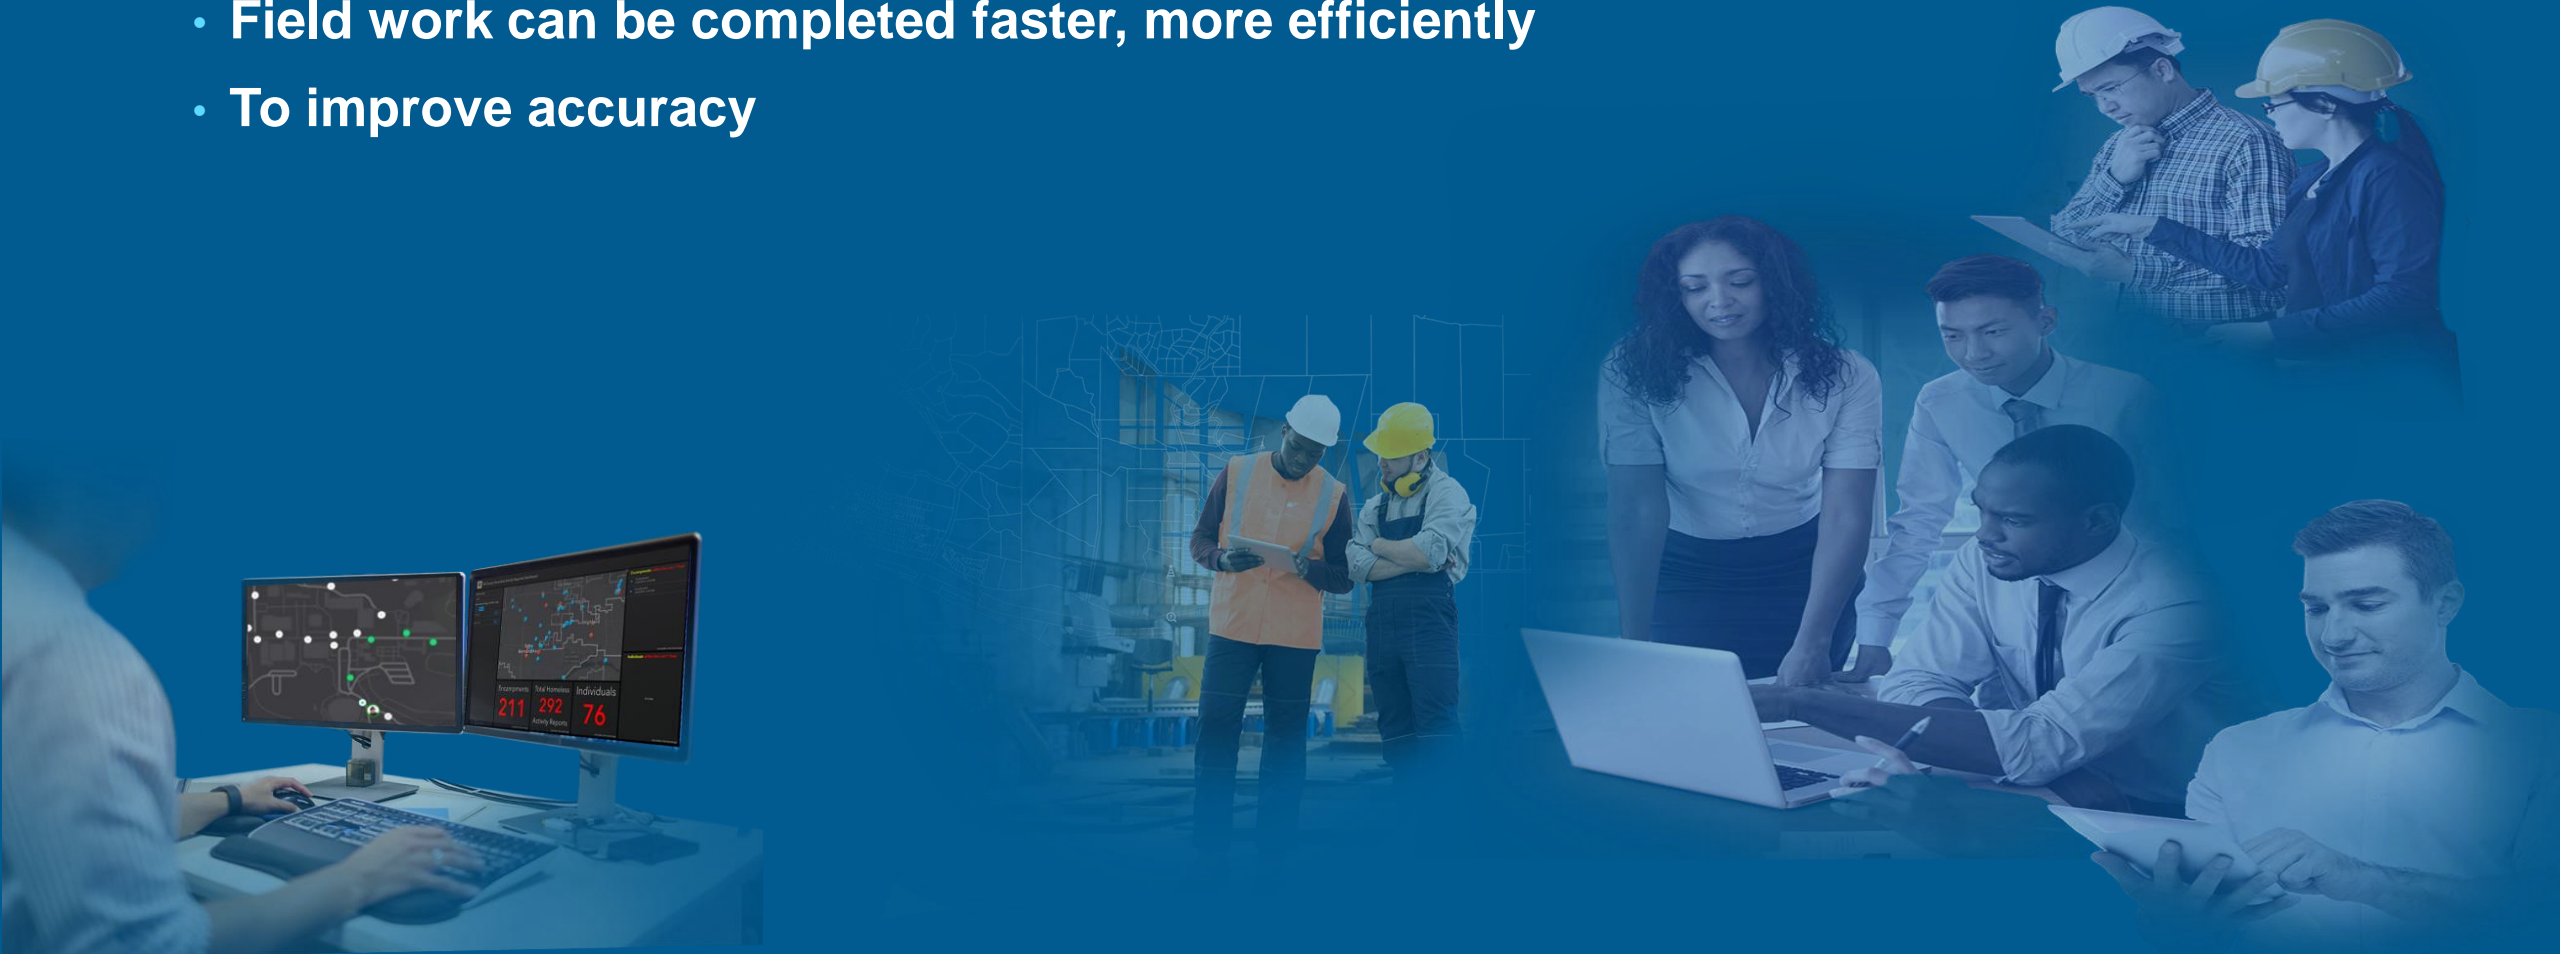

Named Users and ArcGIS Apps	
*ArcGIS Online Viewer	50
*ArcGIS Online Creator	200
ArcGIS Enterprise Creator	200
Insights for ArcGIS Enterprise	3
Other	
User Conference passes	3

Creator level includes use of Field Apps

Field Apps
Field Maps
Workforce for ArcGIS
Survey123 for ArcGIS
ArcGIS QuickCapture

Why Field Apps?

- To digitally enable mobile workflows with location intelligence
- Field work can be completed faster, more efficiently
- To improve accuracy

How supported by Esri

- **Standard Maintenance included for period**
 - Includes latest software updates and security
- **Perpetual use licenses + subscription**
 - Rich Cloud Services available including Living Atlas with over 1 TB of curated data
- **GeoNet forums**
- **Access to e-learning and Learn lessons**
- **Esri Statistics Home page with resources and case studies**
- **Statistics Story map with resources, data model and more**
- **GIS and 2020 Census Book**
- **Webinar series**

GeoNet

The Esri Community

Try ArcGIS for official statistics, Step 1: Planning

Learn about integrating GIS with official statistics business processes. Utilize geospatial data in planning and decision making. Pick the path that meets your needs.

Set up an ArcGIS organization

Configure the site for a new ArcGIS organization.

1 hr Lesson

1

Get started with ArcGIS Online

Create and share an evacuation map to prepare for an incoming hurricane.

30 min Lesson

3

Use groups effectively

Get tips and best practices for using groups to organize, share, and secure content items.

15 min Article English Only

2

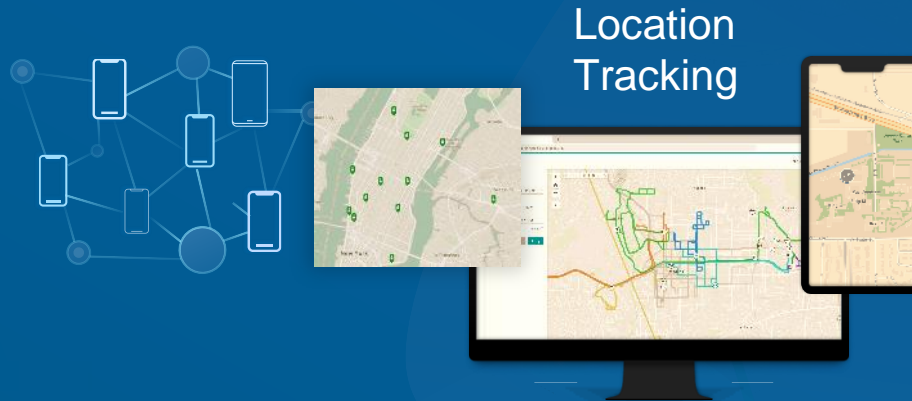

Learn Lessons – Free and Open – Online ...and in multiple languages

Learn ArcGIS

Guided lessons based on real-world problems

GIS in Field Operations

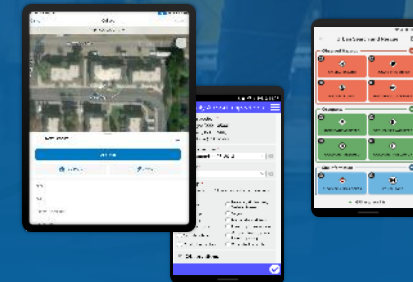

- Tracking
- Offline Workflows
- Preplanned Routes

Navigation

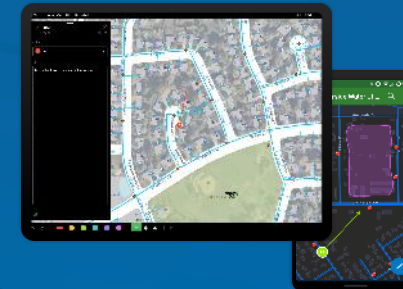

Data Capture

Planning and Management

Maps & Mark Up

Location Services | Provide Spatial Context and Geo-enable your Information

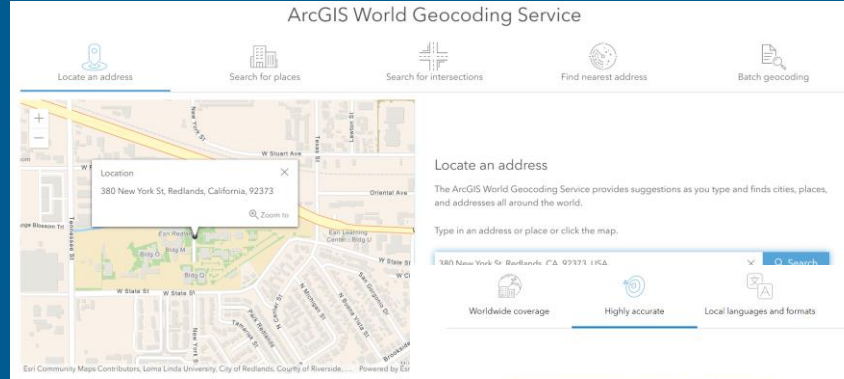

Build on high-quality basemaps

Place your data on a readymade canvas. ArcGIS Online includes the broadest collection of current, historic, and creative basemaps. These high-quality basemaps, maintained by Esri, are built using authoritative commercial and community data. Give context and personality to your data using a variety of basemaps.

- Global, high-resolution imagery
- Customizable vector basemaps
- Creative basemaps

Maps

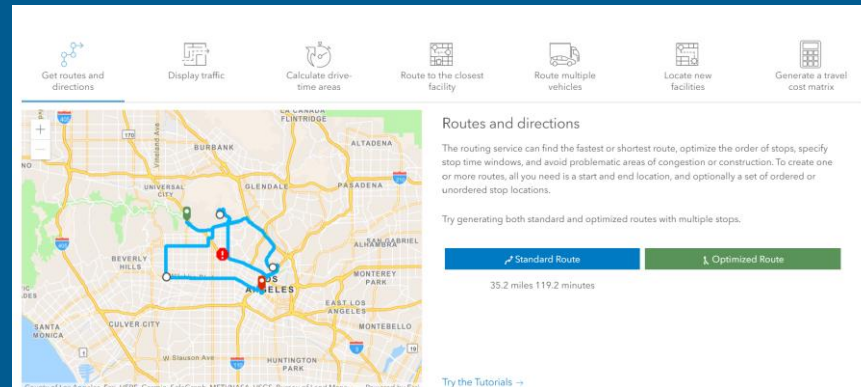

Geocoding

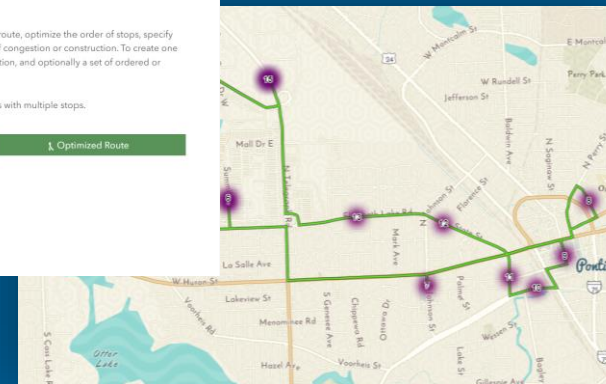

Highly accurate

Get the most precise, accurate, and reliable results. The geocoding engine will look for the best available match level, rooftop or parcel, and automatically cascade to the next best level.

Routing

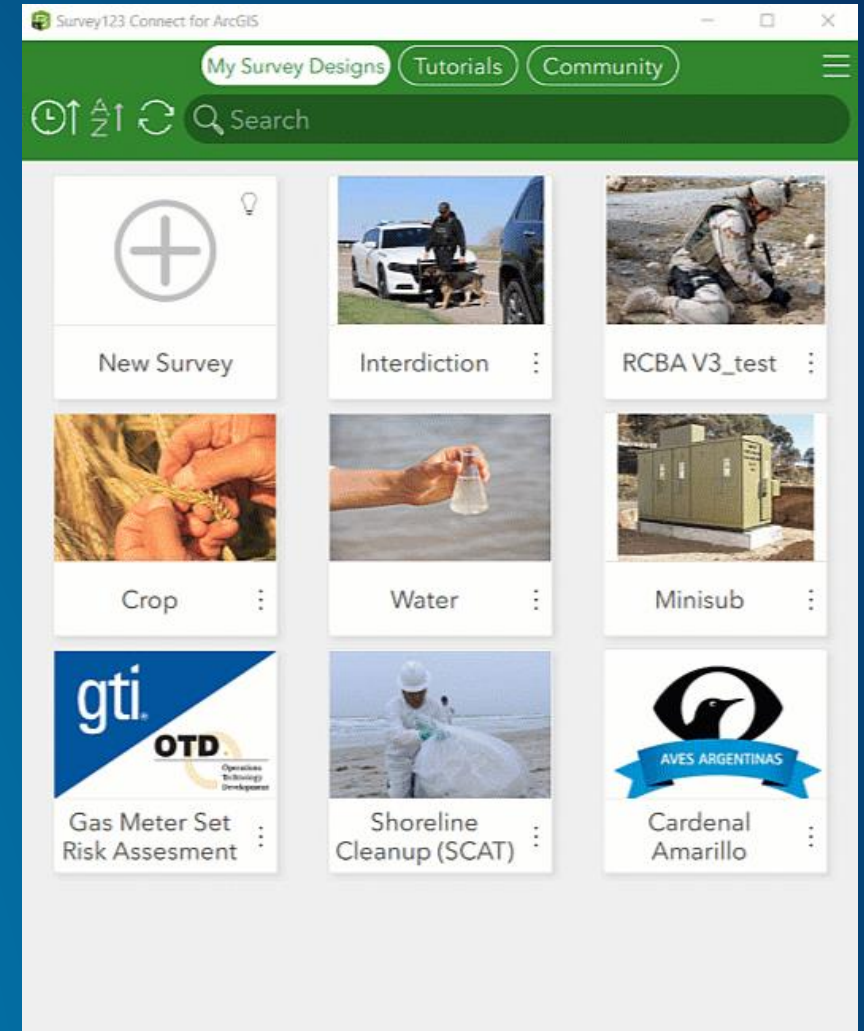

Survey123 for ArcGIS

Form Centric Data Collection

Simple data collection experience

Sophisticated smart form capabilities

Web & Native

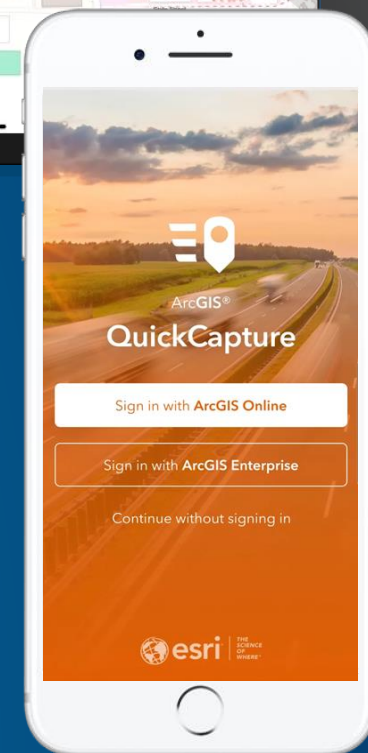

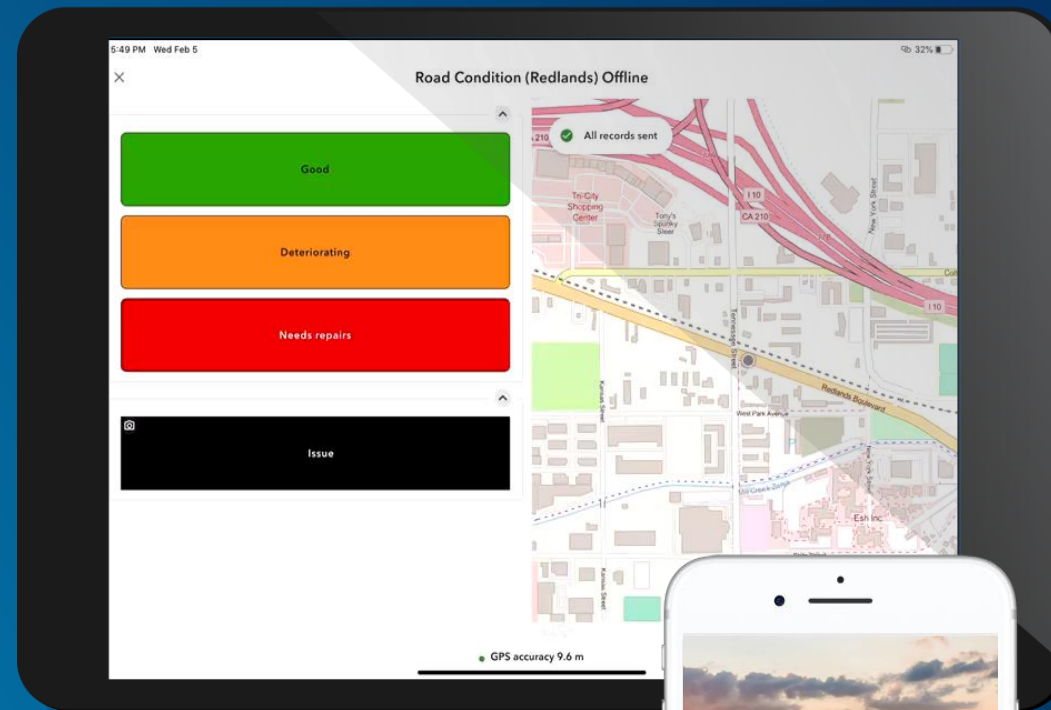

ArcGIS QuickCapture

Rapid data collection

A “big button” mobile app

Simplest way to capture field observations

At-speed data collection workflows

Over 30 countries already adopted the program

Example: Liberia

THE LIBERIA 2021 POPULATION AND HOUSING CENSUS NATIONAL GEOG...

123 space return

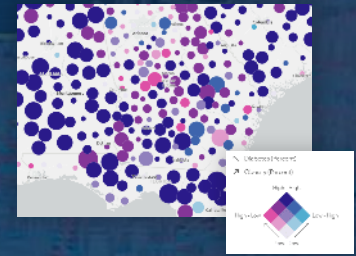

GIS and Dissemination

Dynamic and Data-driven Smart Maps

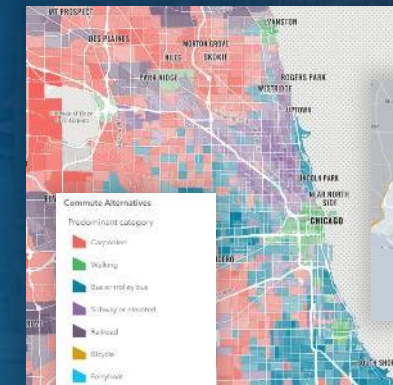

- Geographic aggregation of data
- Information products including maps, reports, atlases, and interactive websites
- Marketing of geographic census products
- Outreach and education
- **SDGs – measure, monitor and report**

Multivariate

Dynamic Clustering

Predominance Mapping

Graduated Symbols

Statistical Yearbook

Applications

SDG Reporting

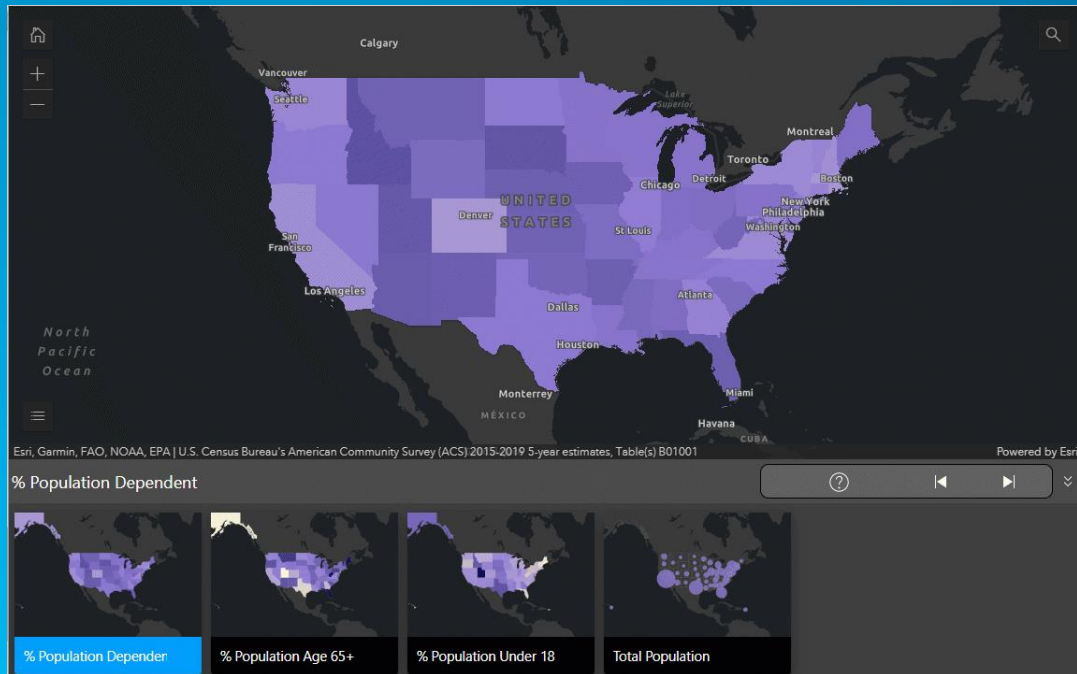

Maps for Policy Makers

Story Maps

National Portal Templates

The Process

- Country NSO applies online
- Application received by Esri
- Notification given back to country and to UNFPA that they are eligible for program
- Discovery Session: Web Meeting with discussion on requirements, current status, needs and gaps in order to best advise the country
- Paths to procure:
 - Country procures directly from Esri
 - UNFPA HQ procure direct on behalf of the country
 - UNFPA country office funds
- Quotation is provided to either UNFPA or country or both
- Purchase Order issued
- Esri needs to have an MLA signed by country NSO
- Provision licenses directly to the country

Country/Region *

How many employees are in your organization? *

Information needed

- Requesting Agency name
- Requestors contact information:
 - Email
 - Telephone number
 - Address, city, province, country
- End User Agency name
- Address, City, Province, Country, Post code
- Agency web address
- Contact person name
- Contact person title
- Email address of contact person
- Telephone number for contact person

Are you ready for Census 2020?

ArcGIS provides the tools to create the accurate and timely data needed to inform policy and guide decision making.

Population and Housing Censuses are one of the primary sources of data needed for formulating, implementing, and monitoring policies aimed at inclusive socioeconomic development and sustainability. Good governance demands better information. Using and applying geospatial technologies and geographic information benefits all stages of the population and housing census process. ArcGIS provides a complete platform for official statistics. It gives you the tools to plan your work, conduct field data collection, monitor your operations, and quickly disseminate your authoritative data.
